- Tools / Languages Used: HTML5, CSS3, JavaScript, jQuery, MaterializeCSS, PassportJS, NodeJS, ExpressJS, MySQL, BCrypt, ESLint, HandlebarsJS, ESLint, Sequelize.

EXPERIENCE

Manufacturing Engineer TASUS Texas, Georgetown, TX

August 2018 - June 2020

TASUS adheres to the Toyota Production System "14 Principles" of management, requiring cross-functional teamwork and critical problem solving. This role's core responsibilities included product launches, training and operations documentation, Kaizen process improvement, and analyzing production viability data.

- Extrusion line overhaul: 75% reduction in virgin plastic needed, 36% overall annual profit increase.
- Lean Manufacturing Certification of Achievement Southwest Research Institute.

Manufacturing Engineer / Assembly Manager Vision Plastics, Inc. Elkhorn, WI

July 2015 - August 2018

This role worked on new-product launches, continuous improvement of manufacturing methods for injection molding and secondary operations, and daily team management of production personnel emphasizing 5s and lean practices. Core member on implementation team for new ERP management software (IQMS) install and changeover.

- Developed and tracked new metrics for machine/operator cycle efficiency.
- Project Lead for purchase & install of 500T Injection press and building-wide HVAC system.
- Collaborated on creation of APQP paradigm.
